Precio: \$ 69.900,00

Varios, Autores

Especially busy urbanities are plagued by an insatiable desire to escape the city to the countryside?to breath in fresh air, yearning silence and comfort. The interiors of the homes presented in Living in Style Country are influenced by their pristine surroundings of untouched nature, majestic mountains, and crystalline lakes. These escapes are nothing less than spectacular, appointed with natural building materials to maintain an atmosphere ranging from vintage to cutting-edge modern. From a hypermodern restored English barn and cozy Provençal or Umbrian cottages, to opulent colonial houses on the American coastline, this lavish book provides ample inspiration for your own home.
